## SUMMER VACATION HOMEWORK

It's Activity Time... let's go!

Dear Parents,

The time has come when you and your child can spend all the time together. That is right, it's the holiday season! Have lively discussions with your child, explore new ideas together, help them communicate and articulate their ideas.

Help them be as creative as they can.

Your child will need your support and encouragement to do the given tasks.

**SUMMER HOLIDAY HOMEWORK [2023-24]**

**CLASS – IV**

**SUBJECT- ENGLISH**

**COMPREHENSION**

**Q.1. Read the passage and answer the questions given below: -**

Loam is a good soil. It contains a lot of minerals. Hence, it is the most suitable soil for plants to grow. The growth of plants actually depends upon many factors. If there is no proper arrangement for the sunlight to reach the green plants, they will not grow well as the process of photosynthesis will be hindered. Hence, plants will not be able to prepare their own food sufficiently. The second factor is that if plants do not get water in the required quantity, their leaves will turn brown and stems will go dry.
